

BERGSTROM SYSTEM INSTALL TRAINING

TRAINING SESSIONS WITH YOUR BERGSTROM SYSTEM PURCHASE

THE NITE® PHOENIX, NITE® SSI AND eCOOLPARK™ SYSTEMS FOR CLASS 7 & 8 VEHICLES.

System Installation Training Packages

Option 1

- 2 training sessions (2 Bergstrom Engineers) + 28 systems = two complimentary systems (total of 30 systems), Cost \$6,400 (USD)

Option 2

- 1 training session (1 Bergstrom Engineer) + 14 systems = one complimentary system (total of 15 systems), Cost \$3,200 (USD)

Training Installation Package

Before training:

- An orientation to the Bergstrom website for manuals and support.
- Review the installation manual.
- A list of tools needed for installation and training session(s).
- Participate in a conference call prior to the installation date to review the vehicle and photos of previously installed items (ie., heater, inverter, shore power, battery box location, headache rack, auxiliary pumps, etc.)
- Inform the customer the vehicle being used for training must be clean and all personal items removed before training.
- Stress to the technicians being trained, they need to be focused and their time be committed to the Bergstrom training project.
- Confirm the dates for the system and installation kits to be delivered.
- Confirm the dates and hours of operation for training.

During installation:

- Upon arrival, Bergstrom trainer(s) arrive and go through the bill of material and inventory.
- Bergstrom trainer(s) will direct the installer(s) and answer questions as needed during the installation.
- Provide Bergstrom system operation training.
- Record the system's serial number and vehicle make/model with the last six digits of the vin.
- Provide the NITE® line number for any additional questions.
- Explain the Bergstrom system warranty process and assist with warranty registrations.

After installation is complete:

- Follow up on any open items that may arise.
- Provide an updated manual if any changes were needed during the installation and post on the Bergstrom website.
- Follow up with a quality check call to make sure all installs continue to be standard to Bergstrom instructions.
- The trainer or installer will advise the Bergstrom engineering team with any concerns.

Sale Terms and Conditions:

- Promotion is available for U.S. and Canadian customers only.
- Systems do not have to be ordered in one purchase, can be multiple purchases.
- All other program discounts apply.
- All prices are subject to change without notice.
- Standard freight policies apply.
- Bergstrom Trainers do not furnish tools unless it is a specialty tool not readily available.

WHY PURCHASE A BERGSTROM SYSTEM?

THE BENEFITS

Reduced wear: Your engine deserves a break.

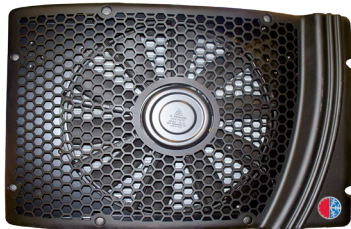

- Reduce engine wear and tear.
- Reduce fuel consumption.
- Reduce frequency of scheduled engine maintenance.
- Reduce frequency of emissions system maintenance.

Green: Easy on the environment.

- Decrease engine run time resulting in significant reduction of fossil fuel usage.
- Reduce greenhouse gas emissions with no-idle operation for cleaner air and less global warming.

HVAC system specs

- Simple, flexible installation.
- Available with optional fuel fired heater
- Efficient operation with 12V/24V systems
