

INTRODUCING

the **NITE** No-Idle
Controller Smart
App.

Control. Monitor. Troubleshoot. The innovative NITE® HVAC* no-idle system just got smarter, easier and more efficient. The app, which can be downloaded to iPhones, iPads and Androids, is standard on the NITE® Phoenix SSI system and is available as an option on the standard NITE® Phoenix system**. Get instant control and information right on your mobile device. It makes the NITE® even better for your specific use – including highway vehicles, off-road vehicles, construction, agriculture, police/security and more.

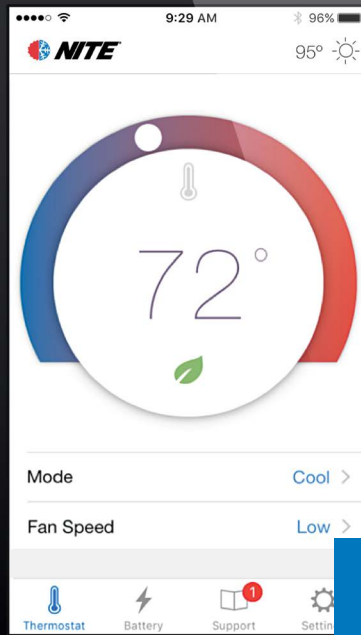

* Espar or Webasto diesel fuel-fired heater optional.

** Existing NITE® Phoenix systems require the purchase of the NITE® Operator Interface (HMI).

NITE CONTROL

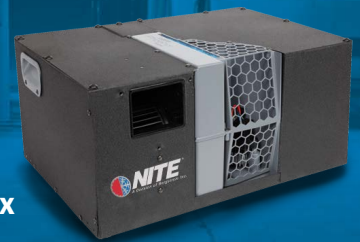

Take full command of your NITE® remotely with your mobile device. Set up your system. Turn your NITE® on and off. Set the temperature, mode and fan speed. Run your NITE® at peak efficiency.

NITE SSI

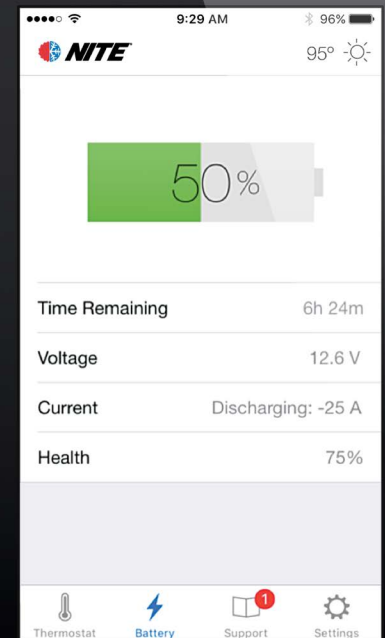

NITE Phoenix

Instant. Genius.

NITE MONITORING

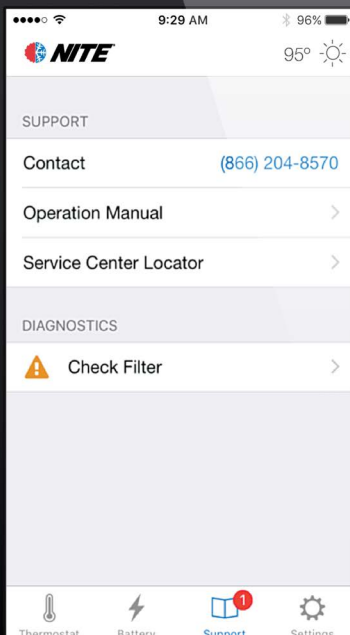

Get immediate access to battery information: charge status, battery health, voltage and current. Find out the outdoor temperature. Check the system's efficiency status. You can even use the Run Time Calculator to estimate run time according to outside temperature, battery charge and health, and temperature set point.

Time Remaining	6h 24m
Voltage	12.6 V
Current	Discharging: -25 A
Health	75%

NITE TROUBLESHOOTING

Take control of any issues with your NITE.® Get immediate diagnostics, system information and operational guides. You can also directly contact Bergstrom's NITE® System Help Line if you have cellular service. Or find the nearest service center in the U.S. and Canada with mobile location services.
