

NITE® PRODUCT MENU

WORKING DAY AND NITE® TO CREATE SOLUTIONS THAT WORK FOR YOU.

Productivity. Efficiency. Perseverance. In this industry, these words are the foundation of what we do every day. We're in a field of work that demands we constantly move forward and innovate for the future.

That means you must rely on a trusted company that has your comfort and bottom line in mind. A company built for you, with over five decades of expertise creating heating and cooling solutions that work just as hard as you do.

Bergstrom's NITE® suite of products have been setting industry standards and raising the bar with

efficiency and quality year after year. These systems are carefully engineered to maximize comfort; no matter where your roads take you. From operating in the desert heat to the icy tundra, NITE® products save fuel, keep you comfortable and help protect the environment.

So, go ahead, take a look at the range of products and accessories. We're sure you'll find the specs and features to meet your needs and exceed your expectations.

After all, it's the best-selling battery-operated, no-idle system on the market for a reason.

75°
70°
65°

TWO SYSTEMS. ENDLESS COMFORT.

Finding the best no-idle system for your sleeper is important. While there are a few differences between the NITE Phoenix and NITE SSI, each system offers unmatched comfort and efficiency, and both are the best-selling battery-operated, no-idle systems on the market.

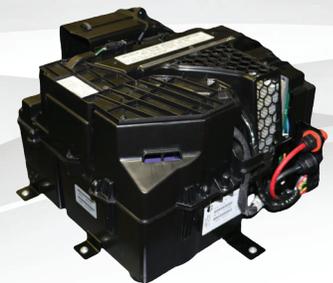

The next generation of NITE, this unit is designed for drivers who travel in scorching hot conditions. As a battery-powered, no-idling system, the NITE Phoenix generates the highest BTU/hr cooling capacity at 7,500 BTU/hr without sending damaging emissions into the environment.

NITE® PHOENIX

Beating the heat comes down to three letters: SSI. As a battery-powered, no-idling system, the NITE SSI generates the highest BTU/hr cooling capacity at 7,500 BTU/hr without sending damaging emissions into the environment.

With the NITE Phoenix or NITE SSI, you can rest assured that your investment will keep you comfortable in various environments.

NITE® SPACE SAVING INNOVATION (SSI)

AT A GLANCE: WHAT'S THE DIFFERENCE?

NITE PHOENIX

- Durable steel construction
- Large 12V compressor leads to larger cooling capacity
- Optional Controller with Bluetooth technology available
- Sealed refrigeration loop

NITE SSI

- SSI split system allows servicing the refrigeration loop using a replaceable evaporator coil, TXV, drier and condenser coil
- Brushless motors in compressor and condenser fan for extended life
- Digital controller with wireless technology included

BOTH SYSTEMS

- Automatic digital temperature control
- 8 to 10 hours of run time
- California Air Resources Board (CARB) Compliant
- Installs easily under the bunk or side storage areas
- Adaptable to OEM ductwork in most applications
- Features new evaporator filter for extended coil life
- Vibration eliminators to reduce vibration and noise
- Features metering devices

HOW TO DETERMINE WHICH SYSTEM IS RIGHT FOR YOU.

Choosing Bergstrom was the first great choice you've made. Now, you just need to decide which NITE system will be the best solution for you. Answering the following questions will send you down the right road to your perfect NITE.

- 1 What is the make of your truck? _____
- 2 What is the model of the truck? _____
- 3 What is the year of the truck? _____
- 4 What size is your bunk? _____
- 5 Do you have a workstation? _____
- 6 Do you have a back-wall window? _____
- 7 Do you have a fuel-siphoned heater? _____
- 8 What is the in-frame space size for the battery box? _____
- 9 What is the current size of your alternator? _____

Use this space to jot down notes or model numbers:

Find your regional sales manager for further questions and assistance. You can find your regional sales manager here: <http://us.us.bergstrominc.com/eproduct-systems/contact-nite-sales/>.

NITE® PHOENIX

Save up to 3,800 gallons of fuel per year on average and lower your maintenance costs with the NITE Phoenix. This system helps reduce DPF maintenance due to less idle time, which saves you time and money. This quiet unit provides A/C and heat for 8 to 10 hours, and ROI for years to come.

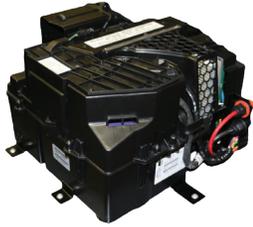

Choose between the A/C or A/C with heat base kit, and then choose your specific truck make/model for the installation kit.

SOLAR

Bergstrom's innovative Solar Energy Systems conform to any surface and are virtually unbreakable. You'll get more power, increased durability, increased comfort and extended run time. All of that adds up to measurable ROI starting from the moment you install "the system." In fact, most of our customers see a full return of their investment in 6 to 18 months.

Installation is available on your new truck purchase as well as an aftermarket installation on your existing fleet.

Bergstrom Solar Energy Systems utilize Merlin patented technology for superior performance.

CELL	BERGSTROM	TRUCK APPLICATION
SOLAR KIT, 330 Watt, 12 VDC	(6 x 12) 1001486215	Most truck tractor models, trailer reefer, liftgate, etc.
BLACK SEALING TAPE	1002206590	All truck models

POWER YOUR ROI WITH THE SUN.

The Solar Energy System extends the runtime of hotel loads without engine idling and brings relief to the alternator, which saves fuel and money. It also extends battery life up to 200%, practically eliminating dead batteries and their cost and time inconveniences.

Bergstrom offers a full complement of solar solutions to meet any type of truck or trailer needs.

YOUR COMBINATION. YOUR COMFORT.

While your NITE system is extremely powerful on its own, we offer a variety of accessories to make your NITE an even better fit for your needs. Everything from heaters to battery boxes and shore power kits can be combined with your NITE system to create a more effective solution for your heating and cooling needs.

ACCESSORIES

BATTERY PACK

NITE® systems require four batteries that meet the following specifications:

- AGM (Absorbed Glass Mat)
- Deep Cycle
- Group 31

PERFORMANCE REQUIREMENTS:

Voltage – 12Vdc 12-volt batteries must have a minimum of 100-amp hour rating.

Please note that the stock alternator will have to be replaced with an alternator with a minimum 30 amps additional charging capacity. Preferably increase to a 185 to 200 amp minimum alternator.

FINANCE YOUR BERGSTROM SYSTEM THROUGH MARLIN.

Bergstrom has partnered with Marlin to offer financing options for our NITE® and solar system packages. This may make your investment CASH NEUTRAL.

WHY FINANCE?

- Preserve credit lines.
- Customized payment approach.
- Eliminates liability on your credit.
- Creative customized lease programs.
- Requires less money up front.
- Permits soft costs financing.
- Section 179 tax savings.

Submit the finance application today and experience the personalized customer service and solar solutions that Marlin offers. Call 856-505-4232 to get started.
