

MEET YOUR FLEET'S ROI SUPERSTARS

BERGSTROM'S BATTERY HVAC

NITE® NO-IDLE SYSTEM – FAST AND MEASURABLE ROI

Here's a scary fact – the typical operator spends \$11,515 on fuel per year just from idling alone.

When the battery-powered NITE® (No-Idle Thermal Environment) system is installed in your truck, it starts paying for itself from the very first day. By dramatically reducing fuel and maintenance costs, the NITE® helps you be more competitive and more efficient. It's the kind of bottom-line payoff that adds up fast – and keeps adding up.

- Available as a factory installed option on your new truck purchase.
- Available as an aftermarket installation on your existing fleet.
- Used on three of the seven trucks in NACFE's Run on Less demonstration in September 2017.

HOW MUCH WOULD YOU SAVE USING THE NITE®?

With a fuel cost of \$3 per gallon, your estimated no-idle savings would be:

YEAR 1	\$11,515
YEAR 2	\$23,030
YEAR 3	\$34,545
YEAR 4	\$46,060
YEAR 5	\$57,575

Based on diesel prices of \$3 per gallon, 6-cylinder engine, 1,000 RPM, idling eight hours per day, 300 days per year. Reference: www.epa.gov.

Further savings result from reduced frequency of costly DPF cleaning, oil changes and engine overhauls.

SOLAR WITH MERLIN TECHNOLOGY

POWER YOUR ROI WITH THE SUN

Bergstrom's innovative Solar Energy Systems conform to any surface and are virtually unbreakable. You'll get more power. Increased durability. More comfortable drivers. And more run time. All that adds up to measurable ROI starting from the moment you install. Most of our customers see a full return of their investment in 6 to 18 months.

Installation is available on your new truck purchase and as an aftermarket installation on your existing fleet.

Bergstrom Solar Energy Systems utilize Merlin patented technology for superior performance.

MERLINSOLAR
REDEFINE POSSIBLE

SAVE FUEL

- Extend power availability without idling engine.
- Add up to 10 hours of run-time.
- Relieve alternator load.

REDUCE ASSET DOWNTIME

- Excellent charge source for your batteries.
- Practically eliminate dead batteries.
- Avoid costly jump starts.

REDUCE MAINTENANCE COSTS

- Reduce battery depth of discharge.
- Extend battery life by up to 200 percent.

30% Solar Investment Tax Credit available! Consult your tax advisor for more information.

Bergstrom®

FINANCE YOUR BERGSTROM SYSTEM THROUGH MARLIN.

Bergstrom has partnered with Marlin to offer financing options for our NITE® and solar system packages. This may make your investment CASH NEUTRAL.

WHY FINANCE?

- Preserve credit lines.
- No liability on your credit.
- Creative customized lease programs.
- Requires less money up front.
- Permits soft costs financing.
- Section 179 tax savings.

FINANCE PROCESS

When you work with Marlin, you'll have a Single Point of Contact Service®. They'll get to know your business and your unique needs, offering an unsurpassed level of customer service.

Our finance process is broken into five simple steps:

1. Submit application.
2. Decision in two hours.
3. Finalize proposal.
4. Sign documents.
5. Equipment is ordered.

CUSTOMIZED APPROACH

Choose the payment methods that works for you.

- \$0 down
- Deferred payments
- Annual or quarterly payments

EQUIPMENT COST	24 MONTHS	36 MONTHS	48 MONTHS	60 MONTHS
\$8,500	\$395*	\$278	\$219	\$184
\$10,000	\$465	\$327	\$258	\$217
\$16,000	\$745	\$523	\$413	\$345
\$32,000	\$1,490	\$1,045	\$825	\$695
\$60,000	\$2,795	\$1,965	\$1,550	\$1,300
\$90,000	\$4,110	\$2,770	\$2,150	\$1,780

*\$960/month NITE® savings - \$395 lease expense = \$564 positive cash flow/month.

Subject to credit approval. One payment is due at signing. \$1 buyout purchase option. Please call for projects over \$100,000. Rates are subject to change. Documentation fee of up to \$250 may apply.

For more information about financing options, please contact **Marlin Capital Solutions** at 856-505-4145.
