

## BERGSTROM

Since 1949, **Bergstrom** has been supplying to many of the world's largest and most respected companies with their heating and air conditioning solutions.

### INNOVATION

Complete engineering, design and development capabilities.

### MANUFACTURING

Manufactured using Bergstrom's World class manufacturing systems and processes.

### QUALITY

Designed, engineered and manufactured in the U.S. and China facilities.

## BOOSTER PUMPS

BAFT-TBSTR-21R1-EN-B

# We've pumped up performance with higher efficiency and greater durability.

Get on board with the most efficient, durable booster pump on the market – with the next generation booster pump from Bergstrom!

## Booster Pumps

- **Materials**  
Zytel Plus material used on housing, cover and impeller.
- **6 Cover to Housing Fasteners**
- **Impeller Interface**  
Double D interface which guarantees no slippage and positions the impeller more consistently.
- **Impeller Design**  
Sonically welded closed impeller, contoured for maximum efficiency.

- **Mechanical Seal**  
Silicon Carbide and high temp Viton rubber.
- **Pump Inlet Joint**  
New hose and elbow design eliminates o-ring and copper tube, creating a versatile joint that allows elbow to be turned to virtually any angle needed without o-ring breakage. Elbow feature is incorporated into the cover on the 90° version.

Our booster pumps are designed for drop in replacement of old pumps. The wiring connectors are the same. The inlet and outlet angles are also the same.
