

# BERGSTROM ELECTRIFIED SYSTEMS M-SERIES

## Cab Climate Control Systems for the Most Demanding Operator Environments

M-Series is a "multipurpose" system designed to be used on larger cabs where 3-phase electrical power is available. These are the largest systems in the Bergstrom line and are available in capacities of 18,000 BTU/hr to 54,000 BTU/hr with various voltages available.

**Bergstrom®**

## CAB CLIMATE CONTROL SYSTEMS FOR THE MOST DEMANDING OPERATING ENVIRONMENTS

Bergstrom Electrified System engineers and manufacturers heavy-duty climate control and filtration systems that are the finest in the world. Our products are engineered for flawless around-the-clock performance in the most extreme environments on the planet.

### Bergstrom Products-Built to Last

Since 1949 we design, manufacture, assemble and supply OEM heating, ventilating and air conditioning systems for commercial vehicle, off-highway and specialty vehicle industries.

Bergstrom Electrified System products are on new and rebuilt machinery in crane cabins, control pulpits and switch room locations around the globe. We are the preferred supplier to the largest OEMs in the mining industry and you'll also find our products in service on Foundry Equipment, Off-Shore Drilling Equipment, Shipyard Cranes, Logging Equipment, Mining Equipment and Custom Designed for Specific Applications.

We have a full line of products that are ideal for many mission critical applications. In addition our engineers will also work with your team to develop a unique solution for a specific application.

### Benefits and Features

- Heavy gauge stainless steel construction
- Industrial quality componentry
- Wide fin pitch to reduce coil clogging
- Hinged covers with gas struts for quick access
- Electronic temperature controls to provide precise control in any environment
- Flexibility in mounting hardware to enable several configurations with the same unit
- Environmentally friendly refrigerant R134a

### Specifications

<b>Voltages Available</b>	208/230/1/60, 200/230/3/60, 200/220/3/50, 380/415/3/50, 460/3/60, 460/3/50, 575/3/60
<b>Available Cooling Capacities</b>	18,000 - 54,000 BTU/hr
<b>Applications</b>	<ul style="list-style-type: none"> <li>• Draglines</li> <li>• Shovels</li> <li>• Drills</li> <li>• Crane Cabs</li> </ul>
